Case No. CV 09-0037-CW

**DEFENDANTS' RESPONSE TO
 PLAINTIFFS' FIRST REQUEST FOR
 PRODUCTION OF DOCUMENTS**

20
 21
 22 Defendants in this civil action, by and through undersigned counsel, hereby submit the following
 23 responses to Plaintiffs' First Request for Production of Documents:

GENERAL RESPONSES

24
 25 1. The information submitted herewith is being provided in accordance with the
 26 Federal Rules of Civil Procedure which permit the discovery of any matter not privileged that is
 27 relevant to the subject matter of this civil action. Fed. R. Civ. P. 26(b)(1). Accordingly,
 28

1 Defendants do not, by providing such information, waive any objection to its admissibility on the
2 grounds of relevance, materiality, or other appropriate ground.

3 2. The responses supplied herein are not based solely on the knowledge of the
4 executing party, but include the knowledge of the Defendants, their agents, employees,
5 representatives, and attorneys, unless privileged.
6

7 3. To the extent that Defendants produce documents, Defendants do not concede that
8 the information requested is relevant to this action. Defendants expressly reserve the right to
9 object to further discovery of the subject matter of the request for production of documents and
10 the introduction into evidence of any answer or portion thereof or any document produced in
11 response to these Document Requests.
12

13 GENERAL OBJECTIONS

14 1. Defendants object to Plaintiffs' Request for Production of Documents, including
15 all definitions and instructions contained therein, to the extent they seek to impose obligations
16 beyond those specified under the Federal Rules of Civil Procedure or other applicable rules. All
17 of Defendant's responses to Plaintiffs' document requests herein are subject to and without
18 waiver of this objection.

19 2. Defendants object to Plaintiffs' definitions of "COMMUNICATION,"
20 "COMMUNICATIONS," "DOCUMENT," "DOCUMENTS," "MEETING" or "MEETINGS" to
21 the extent that they seek production of electronic mail or other electronic records that are not in
22 word-searchable format, including, but not limited to, any computer backup tapes. Such
23 definitions render any corresponding requests unduly burdensome and not reasonably calculated
24 to lead to the discovery of admissible evidence, and the burden of any such proposed discovery
25 outweighs its likely benefit.
26
27
28

1 3. Defendants object to Plaintiffs' definition of "TEST PROGRAMS" as overly
2 broad. The term "TEST PROGRAM" is defined to include, "without limitation," specifically
3 identified test programs "and any other program of experimentation involving human testing of
4 any substance[.]" Such a definition renders any corresponding requests unduly burdensome and
5 not reasonably calculated to lead to the discovery of admissible evidence, as this definition has
6 the potential to encompass clinical trials and other human tests in any setting, under any
7 circumstances, and within any time frame. As most literally responsive records are wholly
8 unrelated to the subjects of this litigation, Defendants have limited their response to relevant
9 information pertaining to the specified test programs and other chemical or biological testing
10 involving service members conducted in conjunction with the Edgewood Arsenal area of
11 Aberdeen Proving Ground, Maryland, Fort Detrick, Maryland and Fort Ord, California.
12

13 4. Defendants object to Plaintiffs' Notice to the extent it requests information that is
14 not reasonably calculated to lead to the discovery of admissible evidence.
15

16 5. Defendants object to providing any files, records, reports, and any other papers and
17 documents pertaining to any individual other than the individually named Plaintiffs to the extent
18 that such information is protected by the Privacy Act, 5 U.S.C. § 552a, the Health Insurance
19 Portability and Accountability Act of 1996 ("HIPAA"), 42 U.S.C. § 1320d-2, the HIPAA Privacy
20 Rule, and/or 45 C.F.R. parts 160 and 164. Defendants further object to Plaintiffs' request for
21 production of documents to the extent they seek information protected from disclosure by the
22 attorney-client privilege, the work product doctrine, deliberative process, or any other applicable
23 privilege or immunity recognized under statute, regulation or applicable case law. In
24 conformance with Fed. Rule Civ. P. 26(b)(5), Defendants will describe the nature of any
25 documents that are withheld as privileged or subject to protection as attorney work product.
26
27
28

1 6. Defendants object to Plaintiffs' Request for Production of Documents to the extent
2 they seek responses from any individual or entity other than Defendants or to the extent they
3 seeks information that is publicly available, and/or that is equally or more readily available to
4 Plaintiffs.

5 7. Defendants object to Plaintiffs' Request for Production of Documents to the extent
6 they demand the production of documents not within the possession, custody, or control of
7 Defendants.

8 8. Defendants object to Plaintiffs' Request for Production of Documents to the extent
9 that they seek information that is classified pursuant to Executive Order 12,958 and subject to the
10 state secrets privilege or otherwise subject to the state secrets privilege.

11 9. Defendants further object to the instructions and definitions set forth in Plaintiffs'
12 Request for Production of Documents to the extent they impose obligations on Defendants that
13 require disclosures of information protected pursuant to the Central Intelligence Agency Act of
14 1949, 50 U.S.C. § 403g, which authorizes the CIA to protect the organization, functions, names,
15 official titles, and salaries of all of its employees notwithstanding any other provisions of law.
16 All of Defendants' responses to Plaintiffs' document requests herein are subject to and without
17 waiver of this objection.

18 10. Defendants objection to Instruction 10 as unduly burdensome insofar as it seeks
19 documents created, received or dated between January 1, 1940 and the present, a span of over 70
20 years.

21 11. To the extent that Defendants produce documents, they do not concede that the
22 information requested is relevant to this action. Defendants expressly reserve the right to object
23 to further discovery of the subject matter of these Document Requests and the introduction into
24

1 evidence of any answer or portion thereof or any document produced in response to these
2 Document Requests.

3 12. Each of the foregoing statements and/or objections is incorporated by reference
4 into each and every specific response set forth below. Notwithstanding the specific responses to
5 any document request, Defendants do not waive any of their General Objections.
